

This route is a partnership between

Doncaster Metropolitan Borough Council

Sustrans

New Opportunities Fund

Doncaster Greenway North

Sustrans - the sustainable transport charity - works on practical projects to encourage people to walk, cycle and use public transport in order to reduce motor traffic and its adverse effects. 5,000 miles of our flagship project, the National Cycle Network, were officially opened in June 2000, we will increase this to 10,000 miles by 2005.

A four mile path for the whole community, including Woodlands, Scawthorpe, Bentley and Doncaster Town Centre

The Doncaster Greenway is a 9 mile high quality, mostly traffic-free route from Woodlands, Highfields and Scawthorpe in the north of the borough, passing through the town centre to the Dome Leisure Park, the Lakeside Leisure District, Bessacarr and Rossington in the south of the borough. This northern section of the Greenway creates and links existing green spaces such as Highfields Country Park and the ancient monument at Castle Hills. It links into the rail and bus network at Bentley Station and the Doncaster Interchange and also connects into the Trans Pennine Trail coast to coast route and local bridleways which are all shown on the Doncaster Cycle Map.

The National Cycle Network is a comprehensive network of safe and attractive routes to cycle throughout the UK. 10,000 miles are due for completion by 2005, one third of which will be on traffic-free paths, the rest will follow quiet lanes or traffic-calmed roads. It is delivered through the policies and programmes of over 450 local authorities and other partners, and is co-ordinated by the charity Sustrans.
